1 IN THE UNITED STATES DI FOR THE WESTERN DISTRIC	1		
FOR THE WESTERN DISTRIC	Page 1		Page 3
	ISTRICT COURT CT OF PENNSYLVANIA	1	DEBORA FORSYTH, first having
	į	2	been duly sworn, testified as follows:
3 MICHAEL W. HILL, et al., : C.A. Plaintiff : C.A. No. 03	No. 05-160 Erie	3	
Plaintiff : C.A. No. 03 4 : C.A. No. 03		4	DIRECT EXAMINATION
v. : C.A. No. 03-		5	BY MR. LANZILLO:
5 ; C.A. No. 04- JOHN J. LAMANNA, et al., :	OII Erie	6	
6 Defendants :		7	Q. Ms. Forsyth, my name is Rich Lanzillo. I
7 8	·	8	represent Michael Hill, Leslie Kelly, Kevin Siggers, Myron
9 Video Conference Deposition	of DEBORA FORSYTH,	9	Ward, and Kenny Hill in the matters pending in the United
taken before and by Janis L. Fei 10 Public in and for the Commonwe	rguson, Notary	10	States District Court for the Western District of
on Wednesday, December 6, 20	006, commencing at	11	Pennsylvania. We're conducting your deposition today
11 10:08 a.m., at the offices of the	: United States		relative to those cases, and we're doing so by a video
Attorney, 17 South Park Avenue 12 Pennsylvania 16501.	e, Suite A330, Elle,	12	
13		13	hookup, a three-way video hookup. Mr. Colville and Doug are
14 15 For the Plaintiffs:		14	in a remote location. You, I understand, are down in
Richard A. Lanzillo, Esquire		15	Georgia, and I'm in Erie, Pennsylvania.
16 Knox McLaughlin Gornall & Sent 120 West 10th Street	nett, PC	16	So a couple of things to keep in mind before we
17 Erie, PA 16501		17	get started. There's a little bit of a delay between the
18 For the Defendants:	<sub>CΛ</sub>	18	time that I finish speaking and the time you'll hear me, and
Michael C. Colville, Esquire, AUS 19 Office of the United States Atto		19	I think that delay goes all the way around to Mr. Goldring's
700 Grant Street, Suite 4000		20	hookup, Mr. Colville's hookup as well. So you may want to
20 Pittsburgh, PA 15219 21 Douglas Goldring, Esquire		21	pause for a moment before you start to answer a question to
Federal Prison Industries (UNIC	COR)	22	make sure you got the whole question.
22 400 First Street NW Washington, DC 20534		23	If at any time during your deposition you do not
23		24	hear me clearly, just let me know, and I'd be happy to
24	uson RPR		repeat or rephrase my question for you. Also, even if you
Reported by Janis L. Ferg 25 Ferguson & Holdnack Repo		25	repeat of reprisase my question for you. Also, even if you
	Page 2		Page 4
1 INDE	•	1	do hear me clearly, if you don't understand the question,
1 -	-^	2	let me know that, and I'll be happy to rephrase it for you.
2	N CODCVTU	3	I'm not here to trick you. I simply want to get some
3 TESTIMONY OF DEBORA		l <sup>-</sup>	information relative to this to these cases.
	y Mr. Lanzilio 3	4	
	y Mr. Colville 36	5	And with those instructions, let me ask you,
6 Redirect examination	n by Mr. Lanzillo 37	6	first, to please state your full name and your professional
7		7	address.
8		8	A. Debora Ann Forsyth. I work at FCI Jesup. That's
9		9	2600 South 301 Street, Jesup, Georgia.
10		10	Q. And how long have you been in Jesup, Georgia?
111		11	A. Since June 2003.
		12	Q. How are you presently employed?
		13	A. I'm full-time.
12		1	
13		14	C. AUG VOOLDOSHROUS
13 14		14	Q. And your position?     Associate warden of industries and education.
13 14 15		15	A. Associate warden of industries and education.
13 14		15 16	<ul><li>A. Associate warden of industries and education.</li><li>Q. When you gave your original response, there was a</li></ul>
13 14 15		15 16 17	<ul> <li>A. Associate warden of industries and education.</li> <li>Q. When you gave your original response, there was a little crackling or static in the transmission. What,</li> </ul>

- A. From July 1989 to June 2003.
- O. Why is it that you transferred -- I assume it was 2
- a transfer from FCI McKean to FCI Jesup. Was it a
- promotion?

1

5

- A. Yes, sir.
- Q. What was your title while you were employed at FCI 6
- 7 McKean?
- A. I left there as the superintendent of industries. 8
- Q. How long did you occupy that position? 9
- A. About three and a half years. I believe in 10
- November of 1999 I got that position. 11
- Q. What was your position prior to November of 1999? 12
- A. I was the factory manager at FCI McKean. 13
- Q. And how long were you factory manager at FCI 14
- McKean? 15
- A. I really don't remember. It was probably about 16
- 17 two years.
- Q. And when you referred to being factory manager, I 18
- assume we're talking about what is commonly known as the 19
- UNICOR facility at FCI McKean? 20
- 21
- O. All right. Was there any period of time between 22
- 1989, when you started at FCI McKean, and June of 2003 when 23
- you were not employed in connection with the UNICOR 24
- facility? 25

#### A. I directly supervised the managers, which if we 1

- 2 include education, I believe were four.
- O. And, of course, my questions are still focusing on 3
- when you were acting as superintendent of industries. Can
- you tell me, do you recall the names of the supervisors who
- you -- or the managers who you supervised as the 6
- 7 superintendent?
- A. Yes. Marty Sapko. He was the factory manager. 8
- Tim Houlihan was the business manager. Michael Hayes. He 9
- was the quality assurance manager. Beth Fantasky, who was 10
- the supervisor of education. 11
- Q. Ms. Forsyth, briefly, what is your educational 12
- 13 background?

14

16

19

24

4

- A. High school education.
- Q. When did you graduate from high school? 15
- 17 Q. Have you had any formal education or training
- after high school graduation? 18
  - A. With the Bureau of Prisons; the training that I
- received on the job and then training that they give for 20
- 21 various programs.
- Q. That training, was it all provided in-house, for 22
- 23 lack of a better term?
  - A. It was through the Bureau of Prisons, yes, sir.
- Q. In other words, the Bureau of Prisons did not send 25

## Page 6

- A. Yes, sir. It was about a year or a year and two 1
- months, I was employed as a contract specialist in the 2
- institution business office. 3
- Q. Was that early in your tenure at FCI McKean, or
- 5 was that middle, late?
- A. It was fairly early. Like '91, '92. 6
- Q. Okay. And what were your job responsibilities 7
- while you occupied the position of superintendent of 8
- 9 industries at FCI McKean?
- A. I was responsible for the supervision of the total 10
- operation of the factory. 11
- Q. Who was your --12
- A. In addition to --13
- Q. Go ahead. I apologize. 14
  - A. In addition, I was responsible to advise the
- warden of day-to-day activities. And he is who I answered 16
- 17 to.

15

- Q. Okay. That was my next question. Was the warden 18
- your immediate supervisor? 19
- 20 A. Yes, sir.
- Q. And that's Warden Lamanna? 21
- 22 A. Yes, sir.
- Q. Did you yourself supervise employees? 23
- 24 A. Yes.
- Q. Approximately how many? 25

### Page 8

Page 7

- you to a program or seminar outside of the prison system
- itself. Is that correct? 2
- 3 A. Best that I can recollect, yeah, that's correct.
  - Q. And did they bring in anyone from outside the
- prison system to train you, or was it done by existing staff 5
- 6
- A. They had brought in various times people from the 7
- outside to teach leadership training; teamwork approach.
- That's all I received, I believe, from the outside. The
- rest was from the BOP. 10
- Q. So am I correct, then, you were not provided with 11
- any outside training in areas of occupational health or 12
- 13 safety?

14

22

24

- A. Not specifically, no.
- Q. Did you receive any such training generally? 15
- A. During annual refresher training, the safety 16
  - department would give various training, but those were
- 17 in-house, not outside. 18
- Q. Okay. Did you have a written job description as 19 the superintendent of industries at UNICOR? 20
- 21
  - Q. Did that remain the same throughout the time that
- you had that position, that job description? 23
  - To my knowledge, yes.
  - Q. While you were employed as superintendent of

	Page 9		Page 11
1	industries at UNICOR, did the facility make anything other	1	frame?
2	than furniture?	2	A. Two.
3	A. No.	3	Q. And at any given time during either shift,
4	Q. Do you know whether that facility is still	4	approximately how many inmates would be engaged in
5	operating well, let me stop there operating generally?	5	activities, employment, at the UNICOR facility?
6	A. Yes.	6	A. If memory serves, during the day we were close to
7	Q. And do you know whether it's still making	7	200. It was probably 160 to 200, depending on the workload.
8	furniture?	8	At night, we tried to keep it around 100 or less.
9	A. It is not making furniture.	9	Q. And of those employees, approximately how many
10	Q. What are they making now? Plastic products?	10	would be engaged in the cutting or cutting activities
11	A. Yes, sir.	11	involving Micore board?
12	<ul> <li>Q. Do you know why the facility changed from a</li> </ul>	12	A. I would be guessing, but very few. But I would be
13	furniture manufacturing facility to a plastic products	13	guessing, so I'm not sure. I would think less than 10.
14	facility?	14	Q. The employees engaged in cutting Micore board,
15	A. Purely economics, I'm sure. Things were moved to	15	would they be in a discreet area of the facility? In other
16	the Coleman plant.	16	words, separate from the other employees?
17	Q. Where is the Coleman plant?	17	A. No.
18	A. Leesburg, Florida.	18	Q. So if I'm following correctly, then, this was one
19	Q. Was there	19	large shop floor, and one area would be a cutting area? Or
20	A. I'm sorry, Lees County.	20	would they be spread out throughout the facility?
21	Q. Lees County, Florida?	21	A. It is one one large shop, and cutting areas,
22	A. Yes, uh-huh. I believe that's the name of it.	22	depending on the machine, could go throughout the area too.
23	Q. Was there a furniture manufacturing facility in	23	Q. Okay.
24	Lees County, Florida at the same time that one was being	24	A. I'm not I'm not an expert on where everything
25	operated at FCI McKean?	25	was laid out, but just from me walking on the floor, there
L	·		
	Page 10		Page 12
1	A. Yes. Part of that time.	1	were different areas of the factory where things were being
2	Q. Do you know how long there's been a furniture	2	cut. So not just one area.
3	manufacturing facility in Lees County, Florida?	3	Q. And how often were you actually on the shop floor?
4	A. No, I I don't recall. I remember when they	4	A. At least daily. Sometimes twice a day.
5	opened up the facility down there and they started right	5	Q. And at the times when you would be present on the
6	away doing various furniture products. But as to the exact	6	shop floor, approximately how much time would you spend
7	date, I don't know. And it's Coleman is the name of the	7	there?
8	facility, and it is Leesburg, Florida where it is. I	8	A. Well, it depended on really what I was doing down
9	misspoke.	9	there. But just my daily walks would sometime take about a
10	Q. Okay. When did the UNICOR facility at FCI McKean	10	half hour. If we were checking out a new product, I would
11	first open?	11	assist with that, and sometimes a bit more. But a normal
12	A. I don't know. Late '89, early '90.	12	daily walk was a half hour.
13	Q. Was it in operation when you first arrived at your	13	Q. And that walk, would that encompass the entire
14	initial position at FCI McKean?	14	shop floor?
15	<ul> <li>A. We were setting things up. But, no, it wasn't in</li> </ul>	15	A. Yes, sir.
16	operation yet.	16	Q. Did you have an office?
17	Q. Were you involved in the design or layout of any	17	A. Yes, sir.
18	aspect of the facility?	18	Q. And where was that located?
19	A. No, sir.	19	A. Upstairs, overlooking the factory floor.
20	Q. During the period of time that you were	20	<ul> <li>Q. So you could actually observe what was going on</li> </ul>
21	superintendent of industries, what were the hours of	21	from your office?
22	operation of the UNICOR facility?	22	A. Yes.
1	A The ancients of the time was 7:20 or 7:10 until	23	We talked a few moments ago about whether you

23

25

24 11:00 at night.

A. The majority of the time was 7:30 -- or 7:10 until

Q. And how many shifts were operated during that time

Q. We talked a few moments ago about whether you

25 whether anyone from the outside was brought in, and you had

24 received any outside training at the UNICOR facility or

Page 16

I	2	n	ρ	1	4

- addressed those questions. Let me now ask you what, if any,
- in-house training was provided to you regarding health and 2
- 3
- A. To me, I think it was just the yearly annual
- 5 training that we received from the safety department
- 6

7

9

- Q. Okay. And when you say "annual training", was
- 8 there a session once a year?
  - A. Yes. For all staff.
- 10 Q. And when you say "all staff", what do you mean?
- 11 A. This particular training that I'm talking about is
- for all staff that -- employees that work at FCI McKean. 12
- Q. Would that include the regular staff employees 13
- 14 alone, or would it also include the inmate employees?
- 15 A. Just staff alone.
- 16 Q. Did that annual training occur at a particular
- 17 time during the year?
- 18 A. Yes.
- When was that? 19
- 20 A. My guess, it's the first part of the year. I
- 21 think January, February. I could be mistaken, because
- 22 that's when we do it here. I'm not positive.
- 23 Q. And you mentioned the -- was it the safety office?
- 24 Is that the name of the --
- 25 A. Yes.

- a year to two years, and then they are updated.
- 2 Q. Would the program statements ever be specific
- 3 enough to address, for example, use or working with Micore
- 4 board?

5

6

8

9

13

14

- A. No, sir.
  - Q. These are more general guidelines and policies?
- 7 Is that correct?
  - A. (Witness nods head.) Yes, sir.
  - Q. Could you tell me your understanding regarding how
- 10 the ventilation system worked in the area of the panel saws
- 11 and other saws in use at the UNICOR facility during the
- 12 period of time that you were superintendent of industries.
  - A. Yes, sir. Each -- each machine had a tube that come down, and it actually would suck up any of the dust and
- 15 debris for the machine so that the factory wasn't polluted
- 16 with any of the dust. This would go through the
- 17 air-handling system and go to rest outside in big silos.
- 18 This air-handling system was so strong that on more than a
- 19 couple occasions we had screwdrivers and that kind of thing 20
- get sucked up in them. So we had to look for tools then. 21
- Q. Were the machines tied into a central air-handling system? 22
- 23 A. Not to my knowledge, but I'm not an expert. I 24 just knew how they sucked everything outside.
- 25 Q. And who was responsible for maintaining the
- Page 14

5

6

8

- 1 Q. Okay. And who, in particular, provided the
- 2 training?

3

4

5

- A. Steve Housler or someone in his staff.
- Q. And how long was the annual training?
  - A. This particular class, I believe, lasted two
- 6 hours.
- 7 Q. So annually there would be safety training
- provided by Steve Housler's office, and it would last 8
- 9 approximately two hours? Is that correct?
- 10 A. Yes.
- Q. Other than the two-hour training sessions that 11
- occurred on an annual basis, did you receive any other 12
- 13 training regarding health and safety?
- 14 Not from an outside source and not from BOP.
- Other than program statements that I was to be familiar 15
- 16 with.
- 17 Q. And what are program --
- A. And that was --18
- 19 Q. What are program statements?
- 20 A. Those are policy and procedures that are in place
- 21 that -- for the factory.
- Q. Are those maintained in a central location? 22
- 23 A. Yes.

25

- 24 How often would you receive program statements?
  - A. I'm not sure. Normal program statements last for

- 1 ventilation system and the air-handling system?
- 2 A. Michael Salerno. He was their maintenance 3
  - supervisor.
- Q. Was he specifically assigned to UNICOR, or was he 4
  - an institutional maintenance person?
  - A. No, he was specifically assigned to UNICOR.
- 7 Q. Are you aware of any instances when the
  - ventilation system or the air-handling system malfunctioned?
- 9 A. There -- no, I'm really not. I was trying to
- 10 think if there would be anything that would be cause to
- 11 malfunction, but, no. I don't recall.
- 12 Q. Did you ever receive or become aware of any
- 13 complaints by any inmates or staff employees regarding
- respiratory problems associated with the handling of Micore 14
- 15 board?
- 16 A. No one made me specifically aware of it. Later I
- 17 heard from other staff -- Mr. Sapko, I believe, in
- 18 particular, and Mr. Houlihan -- that was telling me that
- inmates were complaining. Or that they had filed BP-9's or 19
- something. But that was in the interim of me coming here, 20
- 21 so I'm --

- 22 Q. During the entire time that you were
- 23 superintendent, do I understand your testimony correctly
- 24 that during that entire time you were a superintendent, that
  - no inmate or staff employee brought to you any complaints

- 1 regarding respiratory problems associated with the use of
- Micore board?
- A. No. To the best of my knowledge, no. 3
- O. Are you aware of any staff employees submitting
- disability, Workers' Comp., or any other type of medical
- disability claim related to respiratory problems?
  - A. Disability claims, yes, on staff. I'm not
- positive if it was respiratory. It might have been. I know 8
- he was having issues, but I'm not positive. But I do know
- one staff had claims. And I was thinking it was Mr. 10
- 11 Bevevino.

7

12

- Q. What was that individual's name?
- 13 A. Robin Bevevino.
- O. And Robin Bevevino was a supervisor or a manager? 14
- Is that correct?
- A. Yes. He was a foreman on the -- with the inmates. 16
- Q. Do you think that Mr. Bevevino's problems included 17
- 18 respiratory problems?
- 19 A. I know he was -- he was sick quite a bit, yes,
- with respiratory problems. 20
- Q. When did you first become aware of Mr. Bevevino's 21
- 22 respiratory problems?
- A. I -- I don't remember. I know he was out quite a 23
- bit, and there is a -- he was out quite a bit for various 24
- things. He had poison ivy that lasted for a long, long 25

- Page 19
- A. If not everything there, they -- they had various
- 2 topics that they were to talk to the inmates about. So a
- lot of that was self-taught. There were supplies that they 3
- were given, videotapes they were to show. They would
- 5 educate the inmates with materials they had. Each month
- they would educate them on something different, and I don't 6
- 7 know what all those things were.
  - Q. Were any Material Safety Data Sheets maintained at
- the UNICOR facility? 9
  - A. Yes.

8

10

11

19

1

9

14

- Q. Who was responsible for maintaining the MSDS?
- 12 A. I'm not positive. They -- I believe the safety --
- or the maintenance foremen took care of those. They were 13
  - located a couple different places on the factory floor.
- Q. When you say they were located at a couple of 15
- 16 different places on the factory floor, are you indicating
- 17 that they were moved from time to time or that there were
- multiple copies? 18
  - A. There were multiple copies.
- 20 Q. You don't know who was responsible for maintaining
- 21 those for sure?
- 22 A. I can't -- I can't remember. I do believe that --
- 23 well, I do know that every chemical that we brought into the
- institution had to go through the safety department, and 24
- Mr. Snyder was the one that was responsible for that. But 25

#### Page 18

- time. And then he had pneumonia and some colds. And then 1
- he had problems with his back. I'm not sure when all of
- this took place and exactly when I became aware of it. I 3
- wasn't his direct supervisor. I believe Mr. English or
- Mr. Sapko were his direct supervisor.
- Q. Do you know what area of the UNICOR facility he 7 worked in?

6

- A. He worked on the factory floor. The foremen were 8
- rotated almost yearly, so I'm not real sure where 9
- 10 Mr. Bevevino was.
- Q. Did the inmate employees receive any training 11
- 12 regarding the use of Micore board?
- A. I don't know specifically if -- Micore board, but 13
- they received training on safety issues, you know, almost 14
- monthly, as far as how to pick boards up and how not to --15
- (Brief interruption in proceedings.) 16
  - (Discussion held off the record.)
- Q. All right, let's resume. The training, safety 18
- training provided to the inmates, who was responsible for 19
- 20 providing that, Ms. Forsyth?
- A. Each of the foremen were responsible for the 21
- 22 safety talks.
- Q. And the foremen, am I correct that they would have 23
- received their training during the annual training sessions 24
- 25 that you described earlier?

- Page 20 the maintenance department, I think, had a hand in it, but
- I'm not positive. 2
- Q. Where on the shop floor were the Material Safety
- Data Sheets maintained?
- A. I remember one right as you come in near the
- factory office, which is on the floor. And then I believe 6
- there was one station that was in the back close to the 7
- 8 packing area.
  - Q. Are you aware of any other locations?
- 10 I can't remember.
- 11 Q. Did you ever personally consult the Material
- 12 Safety Data Sheets?
- 13
  - Q. Who had access to the Material Safety Data Sheets?
- 15 A. Everybody.
- Q. Was there a Material Safety Data Sheet that 16
- addressed Micore board or silica dust? 17
- A. The Micore board, yes. Even particle board. I 18
- think everything came with an MSDS on it. 19
- 20 Q. When did you become aware that there was an MSDS 21 dealing with Micore board?
- A. I don't know. We had ACA inspections where we had 22
- 23 to make sure everything was in there. I'm not positive. It
- could have -- it could have been the first time that OSHA 24
- 25 came to the factory.

5

### Page 21

- Q. And do you recall when the first OSHA visit was?
- 2 No, I don't.
- Q. Do you know what prompted that visit? 3
- A. A letter, I think. I don't know for sure.
- Q. Do you recall the subject of the complaint that 5
- 6 prompted the OSHA visit?
  - A. (No response.)
- 8 Q. Was it Micore board and dust?
- q A. It was the air -- it was the air quality, if I
- remember correctly. 10
- 11 Q. And as part of your receiving notice of the
- complaint to OSHA and the OSHA visit itself, did you at the 12
- same time become aware that inmates were complaining about 13
- 14 respiratory problems?
- 15 No, I don't know if I think it was inmates or not.
- 16 No. This complaining about the air quality, specific inmate
- ailments, I don't remember. I knew there was an issue, 17
- which was why we -- they -- OSHA said that there was 18
- complaints about the air quality, but I really didn't know 19
- 20 if it was inmate or staff that was making a complaint, and I
- 21 didn't know any specifics.
- 22 Q. I just want to make sure that I'm following your
- 23 testimony correctly here. I mean, when you say you became
- aware that there were air quality complaints, did you not 24
- also understand that in connection with those air quality 25

Page 23

Page 24

- they were testing different areas of the factory and
- outside. But I'm not positive whether it was the gentleman
- 3 from OSHA or Mr. Salerno. But the OSHA gentleman was
- present at the time.
- Q. Did you participate in the OSHA inspection and any
- 6 testing in connection with that inspection?
  - A. No. No.
  - Q. Do you know when they conducted the inspection
  - relative to the operation of the facility?
- 10 A. I believe it was -- the test was like an
- 11 eight-hour test, I'm thinking. I know one of the tests that
- 12 we had was an eight-hour test. And I'm thinking that's what
- 13 they did. Beginning from, you know, the 7:30 to 4:00 shift,
- 14 which is when we have most inmates working.
- 15 Q. Let me ask you this: Is it necessary for the
- 16 inmates utilizing table saws and other saws periodically to
- clean up the saw itself; clean up the dust on the machine or 17
- 18 in or around the machine?
- A. I don't know that. 20 Q. Did you ever observe that?
- 21
  - A. Observe them, no. I observed them using the air
- 22 gun, spraying themselves off for whatever reason, but I
- 23 don't -- that's all I remember seeing.
  - Q. When you referred to the air gun, you're talking
- 25 about some sort of pneumatic or compressed air device?

#### Page 22

- complaints, that people were raising concerns about
- respiratory health and ailments? 2
- A. Yes. That -- that was all part of why they were 3
- 4 concerned about the air quality. But specific inmates and
- specific people, I didn't have that issue. When -- when
- 6 OSHA made their -- made it known that they were coming in to
- check it, is that they received complaints about the air 7
- quality, and that's when we started asking questions and
- things. But, specifically, I didn't know specific people, 9
- 10 that I remember. I don't remember that.
- 11 Q. After the OSHA visit, what did you do regarding
- the air quality issues that were raised? 12
- 13 A. I don't recall doing anything. There was no issue
- with the air quality concerning the OSHA report. Everything 14
- was fine. At one point the gentleman that was there said 15
- that the air quality inside the factory was better than that 16
- outside the factory. So there was no need for me to really 17
- react. And at this time is when I was doing my 18
- 19 house-hunting trip here and then moving here, so I'm not
- sure what happened after that. But I personally don't think 20
- there was a need to do anything. 21
- 22 Q. Who made that statement to you, that the air
- 23 quality inside the facility was better than that outside?
- 24 A. I can't remember if it was the OSHA gentleman or
- Mr. Salerno, but they had one of those readers that -- that 25

A. Yes. 1

2

- Q. All right. And you observed them, what, using the
- air gun to blow dust off themselves or clothing? Is that
- what you're referring to?
- 5 A. Yes. They were blowing something. I would
- imagine it was dust that was there. 6
- 7 Q. Okay. Were you able to observe dust being blown
- off of their clothing or themselves? 8
- 9 A. No. But there were times that there was dust on
- the floor, and they would have to sweep up. And I'm not
- sure where that was or why. But I do remember seeing that. 11
- 12 But as far as dust coming off themselves, no.
- 13 Q. But you did observe them using the air gun to blow
- 14 what you assumed was dust off of their clothes.
  - A. Yes.

15

17

22

- 16 Q. And how often did you see that?
  - A. I -- probably once a day. I don't know. When
- they were getting ready to leave or something. 18
- 19 Q. Okay. So as part of their routine, then, when
- 20 they were leaving, they would be blowing -- blowing dust off

MR. COLVILLE: I'll object to the form, but you

- 21 their clothing; is that right, at the end of the shift?
- 23
- A. Not -- I don't want to imply that everybody did 24
- 25 that. On occasion I would see an inmate doing that. That

25

- being said, they were told not to do that, because it was
- dangerous. So but you asked if I had ever seen it, and I
- 3 had. Probably once a day one of them were doing it. And it
- didn't mean that all of them were.
- 5 Q. Who told you that was dangerous?
- 6 A. Mr. Salerno, because of the air pressure.
  - Q. Okay. So the force of the air? Is that what the
- 8 danger was?
  - A. I would assume. I know enough to be dangerous
- here, so I'm not going to say. I would assume that was it. 10
  - Q. Okay. That's what you believed. Is that what
- 12 you --

7

9

11

- 13 A. I -- yes. Yes.
- Q. Do you know whether the inmates ever used the air 14
- gun to blow dust from the saws themselves? 15
- 16 A. I never witnessed that.
- 17 Q. Do you know whether they did that? Did you learn
- that through any other --18
- 19 A. Not specifically, no.
- Q. Did you believe they were doing that? 20
- A. The concern that I remember was them using the air 21
- 22 gun on themselves, because it could hurt the eyes or
- 23 something. I don't remember any great talk about the air
- 24 gun with anything else. So I don't know. I just never
- 25 thought about it, I guess.

- Page 27 great airing system that I was told was almost double the 2 capacity that we needed, it wasn't necessary, and OSHA agreed with that, as best as I can remember.
  - Q. So just so I understand your testimony, then, it's your testimony that -- and even here sitting here today, based on what you know today, that it was unnecessary for inmates to wear respirators or even dust masks when performing tasks at the UNICOR facility. Is that correct?
    - A. That's my belief, yes. Yes.
  - Q. And do you recall the identity of any person in particular who told you that?
- A. I can't recall specifically, but I do remember 13 reading that. And then I would ask about our air-handling system and the space, and I think Mr. Salerno and 14 Mr. Housler is who I talked to at length about that when we knew OSHA was coming in. But, specifically, that's just my understanding.
  - Q. Did you ask anyone at OSHA about that understanding; whether your understanding was correct?
  - A. I asked OSHA about the facility, about the cleanliness, about potential harm, and they -- their -- even that day of walking around, he said it was the cleanest place that he had seen, and there shouldn't be any concern with anything. Specifically, no. But I just -- it was concerning the air in the factory itself.

Page 26

- Q. Were respirators made available to any of the 1
- employees at the UNICOR facility while you were 2
- 3 superintendent?
- A. To my knowledge, no. Dust masks were available,
- but not respirators, to my knowledge.
- 6 Q. What type of dust mask was provided?
- A. I don't know. They were just the white masks that 7
- 8 you put over your face.
  - Q. Did you ever see inmates wearing the dust masks?
- 10 A. Yes.

9

14

- Q. Anyone in particular? And by anyone, I don't 11
- 12 necessarily mean names, but I'm more interested in the
- activities they were performing with the dust masks. 13
  - A. I couldn't -- I couldn't tell you specifically
- 15 where. It was rare to see it.
- Q. To your knowledge, were the inmates ever 16
- instructed to wear dust masks? 17
- 18 A. No.
- 19 Q. Are you aware of any Material Safety Data Sheets
- or other safety documents that either required or suggested 20
- the wearing of respirators or dust masks when using any 21
- 22 particular material within UNICOR?
- 23 A. Possibly if it was in an enclosed area without an
- 24 air-handler system. I would think even particle board would
- 25 require it. But seeing that we were in a huge room with a

Page 28

- 1 Q. What about, though, that -- what about inmates who
- 2 were directly using saws to cut Micore board, and rather
- 3 than just breathing the ambient air in the facility, but who
- were actually in proximity to the operations point of the
- 5 saws? Did you discuss those people with anyone at OSHA?
  - A. I don't think I did, no.
- 7 Q. Did you have an understanding regarding any
- 8 differences in exposure levels that might occur between an
- 9 operator of a machine working with Micore board,
- 10 particularly a saw, as opposed to someone just breathing the
- ambient air -- the air generally in the facility? 11
- 12 A. No. I don't have that knowledge. I do -- do know
- 13 that when they did the air quality testing, those machines
- they would set up would be near the various machines. And 14
- 15 when they tell me things were fine, I -- I was down there
- 16 walking, I was by those machines and watching them. I
- didn't notice any difference. But I don't have that 17
- specific knowledge, other than things I observed. 18
- Q. Other than your daily walk through the facility, 19
- which I understand encompassed the whole facility and lasted 20
- 21 approximately a half an hour, would you spend any
- 22 significant periods of time on the shop floor?
- 23 A. That's where I was the half hour, was on the shop
- floor, going throughout each machine, talking to inmates, 24
  - seeing the product. On occasion I would be asked by Mr.

-	_	_	_	2
М	а	O	е	7.

- 1 Hayes to come down and look at something he thought maybe
- wasn't quite right, and that would involve me watching them
- cut something and looking at it. So, yes, I was on the shop 3
- floor quite a bit.
- Q. Did you ever observe employees actually engaged in
- 6 the process of sawing boards, Micore boards specifically?
  - A. On the routing machines, yes.
- 8 Q. How many boards would the inmates cut at a time on
- 9 a panel saw, for example?
- 10 A. I don't know.
- Q. Do you have any knowledge regarding anyone 11
- 12 altering any Material Safety Data Sheets relating to the use
- 13 of Micore board?
- 14 A. No.

7

- 15 Q. Specifically, are you -- do you have any knowledge
- 16 of anyone striking out the word "respirator" and inserting
- 17 the word "mask" regarding the use of Micore board?
- Q. Have you ever heard that -- from anyone that that 19
- 20 occurred?

18

- A. What I recall is in the declaration stating that I 21
- never altered an MSDS sheet. I have never seen the supposed 22
- 23 MSDS sheet that was altered. So that, to my knowledge, is
- 24 what I remember then, looking back.
- 25 Q. Did you ever become aware of any complaints from

- us to investigate it and give a report.
- 2 Q. Other than that testing and any testing performed

Page 31

- by OSHA, are you aware of any other air tests performed at
- the UNICOR facility?
- 5 A. I believe that safety department had a little
- 6 machine that they could test. I want to say they did. I
- 7 know they do it here, so.
- 8 Q. What --
  - A. It's part of that policy.
- 10 Q. The machine, can you -- can you be more specific,
- 11 what you're talking about?
- 12 A. No.

9

- 13 Q. You have such a device at your current facility?
- 14 A. Pardon me?
- 15 Q. Do you have such a testing device at your current
- 16 facility?
- 17 A. Yes.
- 18 Q. Did you ever see a similar device at FCI McKean?
- 19 A. I can't remember. That's why now I'm hesitating.
- 20 You know, I'm over 50, so I don't know if I'm combining the
- 21 factory in two plants or not. So the air quality in any
- 22 factory is real important, but I'm not -- I guess I should
- 23 just back up on that one, and Mr. Housler can answer that.
- I'm not real sure now. 24
- 25 Q. Okay.

### Page 30

- either inmate employees or staff employees regarding skin
- irritations or other skin conditions experienced by those 2
- 3 people while -- or while working in association with Micore
- 4 board?

5

- A. No.
- O. Other than the air testing that was undertaken in 6
- connection with the OSHA inspection, are you aware of any
- other air test performed in the UNICOR facility? 8
- 9 A. Yes. We had a private company come in and do a 10 testing prior to OSHA coming in and doing their testing.
- Q. And when was that? 11
- 12 A. I -- I don't remember specifically.
- 13 Q. Do you recall the name of the company who
- 14 performed the test?
- 15 A. No.
- Q. Recognizing that you can't recall precisely when 16
- that occurred, do you recall whether it was soon before the 17
- 18 OSHA testing?
- A. Not too before. I'm thinking there was quite a 19
- few months, if not a year before, but I'm guessing. But 20
- memory -- memory tells me that it was before, so. Long 21
- before, but I'm not positive. 22
- 23 Q. And why was that testing performed?
- 24 A. It was in response to a letter from OSHA stating
- that they had received a written complaint, and they asked 25

- Page 32
- 1 A. But I just never had any concerns with the air quality in that factory. Even when the complaints were

because I know I never even had problems, and we were there

- issued, we had the testing done immediately, and I -- I just
- thought this was the -- the -- you know, I was amazed,
- a lot on the floor.
  - Q. Well, just backing up for a second to the device
- 8 for testing air quality.
  - A. Yes.

7

9

- 10 Q. If I understand your testimony correctly, what you
- 11 are certain of is that such a device is used at your current
- facility, and you can't recall whether one was available or
- 13 used at FCI McKean? Is that correct?
  - A. Correct.
- 15 Q. And as far as the response to notice that there
- 16 were at least concerns about air quality, am I correct that
- 17 no testing was undertaken until OSHA notified you that it
- 18 had received a letter from someone raising concerns about
- 19 the air quality? Is that also correct?
- 20 A. I -- I honestly don't know that, and I don't
- 21 remember. I know the private company coming in that we
- paid, that that's the first I remember doing it. But I 22
- wasn't over at the factory the whole time. So in-house 23
- 24 testing is where I'm not sure of. But to pay an outside
- person to come in, that's the first time. That I remember. 25

	Page 33		Page 35
1	Q. If there was any in-house testing, you're not	1	A. I don't recall those those things.
2	aware of it, though. Is that correct?	2	Q. Is it your belief that you had already left the
3	A. I don't remember.	3	facility by the time the OSHA report or citations were
4	Q. Okay. Did the employees have production quotas?	4	issued?
5	A. No. We we just were a job factory. The job	5	A. That's what I'm thinking. I know that that
6	was there, it went through the factory, and it had a due	6	there was a verbal that had come in while I was still there,

#### Page 37 Q. Okay. Subsequent to OSHA looking at those MSDS sheets, did they come to you at any time and report any concern with what they found to be tampering or alteration of MSDS sheets that they did look at, whether they were for Micore board or any other? 6 MR. LANZILLO: Objection to form. 7 A. No. Not that I recall. 8 Q. Do you know whether or not FCI McKean was issued a citation for having altered MSDS sheets as part of the OSHA 9 10 investigation? A. Not that I'm aware of. 11 12 Q. When you walked the factory floor on a daily basis, did you wear a respirator? 13 14 A. No, sir. 15 Q. Did any staff members wear a respirator while they 16 were on the floor? 17 A. Not to my knowledge. 18 MR. COLVILLE: That's all I have. Thank you. 19 MR. LANZILLO: Yeah, just a couple quick 20 follow-ups. 21 22 REDIRECT EXAMINATION 23 BY MR. LANZILLO: 24 25 Q. Miss Forsyth, you don't know whether OSHA actually Page 38 inspected the MSDS sheets for the Loc-Weld or the Micore board, do you? 3 A. I don't know that, no. 4 Q. Okay. 5 A. I can't recall. 6 Q. And how often did you actually operate a panel saw 7 or a router with Micore board on the facility floor? 8 MR. COLVILLE: Object to form. 9 A. Me specifically? 10 Q. Did you ever operate one of those machines with 11 Micore board, ma'am? 12 A. I did not. 13 Q. And how often would the supervisors or managers on 14 the floor actually be the operators of the equipment? 15 A. I don't know that. 16 Q. That would certainly not be a regular activity 17 undertaken by a manager, would it? 18 A. No. These were supervisors, so. 19 MR. LANZILLO: That's all I have. Thank you very 20 much. 21 MR. COLVILLE: That's all. We'll waive. Thank 22 you. 23 24 (Deposition concluded at 11:16 a.m.) 25
